SKILLS

- Teamwork
- Communication
- Adaptability

ONLINE EVENTS

- Flipkart Grid 6.0Software Development Track
- Tata imagination challenge
- Accenture Innovation Challenge
- CodTech IT Solutions Hackathon
- TCS CodeVita
- SAWIT.AI Learnathon

LANGUAGE

English ●●●○○○○

Tamil ●●●●●●○

PROFESSIONAL PROFILE

Motivated and detail-oriented Computer Science Engineering student aspiring to be a Full-Stack Developer. Strong foundation in front-end and back-end technologies, problem-solving, and user-friendly application development. Eager to enhance expertise in modern web frameworks and cloud technology

EDUCATION

Bachelor of Engineering

National Engineering College(2023-2027)

- Computer science and Engineering

PROJECT

- Airline Passenger and Luggage Management System – Developed a system using OOPS concepts in C++.
- Working on an Traffic Management System – Designed an efficient and user-friendly system using Java, focusing on optimizing traffic flow and reducing congestion through real-time monitoring and adaptive signal control.

TECHNICAL SKILLS

- Programming Languages: C++, Java (basis)
- Web Technologies: HTML, CSS,JavaScript(currently learning)
- Tools & Platforms: VS Code

courses

- I have completed NPTEL courses on Technical English for Engineers, Cloud Computing, Introduction to the Internet of Things, and The Joy of Computing using Python, enhancing my technical and programming skills.

extracurricular activities

- I have Participated Paper Presentation and Code War
- I have attended a workshop on Mastering the SDLC: A Hands-on Journey through Server Scripts, Figma, and Agile Methodologies
